Provide the type stubs of your "untrained" package

Provide the type stubs of your "untrained" package

Create LLM friendly type stubs in 2x commands!

- Python:
```
pyright.run("--createstub", "PACKAGE_NAME")
```

- Creates: ./typings/PACKAGE_NAME

- CLI:
```
npx --package repomix --yes repomix --config
repomix.config.json --output prompt.xml typings/
PACKAGE_NAME
```

- Creates: ./prompt.xml
