Create LLM friendly type stubs in 2x commands!

- Python:
```
pyright.run("--createstub", "LOCAL_FOLDER")
```

- Creates: ./typings/LOCAL_FOLDER

- CLI:

```
npx --package repomix --yes repomix --config
repomix.config.json --output prompt.xml
typings/posit
```

- Creates: `./prompt.xml`

Create LLM friendly type stubs in 2x commands!

- Python:
```
